

The Zimbabwe Institution of Engineers

# GRADUATE ENGINEERS DATABASE

## Description

The newly established Young Engineers Society (YES) of the ZIE is calling on all graduate engineers to join the graduate engineers database. The database will serve to create a streamlined link between potential employers and enlisted graduate engineers. Enlisted engineers will be categorised by discipline, year of graduation and where applicable, industry experience. The database will be operated and managed by the ZIE secretariat.

## Registration

To register, individuals will need a working Gmail account. We encourage individuals without a Gmail account to set up one. Fill in the Google form on the link below using your Gmail account.
